Facebook Interactions

1. The most interacted user is 83b9c07bb77a33d9740f3bc8c30cacc066d5192d with 28 interactions.
2. Depending on how interactions are counted, the average could be two different numbers .
Counting the interactions as the number of edges gives the following average: 4.10243902439
Counting the interactions as two interactions for every edge gives the following average: 2.0512195122
3. There are 301 number of users in the largest subgroup.

WFU WWW Network

1. The web page with the largest number of links within it, is <http://college.wfu.edu> .
2. The web page with the most links from other web pages is <http://www> .
3. The largest cycle has a size of 148.

Bonus

There is no path present from www.wfu.edu to csweb.cs.wfu.edu. This was confirmed with depth first search from www.wfu.edu as well as by using the bellman ford algorithm to find the node.
